

Double Sided Mounting Tape

- Permanent Fixing
- Flexible
- UV Resistant

Double Sided Mounting Tape

A Double Sided Mounting Tape specially designed to have a high tack permanent adhesive with excellent ageing and weather resistant properties for automotive emblems, decals and mouldings, mirror fixings.

Good resistance to solvents, chemicals, UV and heat.

1. Clean and degrease the panel where the body moulding is to be applied

2. Clean and degrease the panel body moulding

3. Apply the Moulding Tape to the body moulding and apply pressure evenly over the tape

4. Peel off the release liner

5. Position the moulding and apply onto the panel applying pressure evenly over the moulding ensuring it is well secured

6. The Bodyside moulding is now securely fixed to the vehicle

Part No	Description	Size	Units/Box
