

ALUMINIUM TAPE

Aluminium masking tape to protect sensitive surfaces against heat and infrared.

| PART NO: | SIZE: | UNITS: |
|-----------|------------|--------|
| 2107.4845 | 48mm x 45m | 10 |

Aluminium Tape

FEATURES

- Heat and light reflection
- Pressure sensitive acrylic adhesive
- Thermally conductive
- Excellent shelf life and high durability
- Provides barrier against heat, moisture and some chemicals during certain applications

BENEFITS

- Protects against high temperatures and U.V.
- Easy release liner
- Efficient for both heating and cooling
- Ideal for long-term, bleak outdoor environments
