

REFIT TAPE TECHNICAL DATA SHEET 2207 V3.12/21

PRODUCT DESCRIPTION

Refit Tape is a permanent carrier-free transfer adhesive with an instant aggressive bond even on difficult to-stick surfaces. Offering good humidity resistance and a wide application temperature, the acrylic-based adhesive tape also performs exceptionally well when exposed to weathering and UV exposure. Refit Tape provides a more consistent application when compared to liquid glues/adhesives and at 0.05mm thick, with no foam carrier provides a better surface to surface bond without a noticeable gap between the surfaces.

SHELF LIFE

One year from date of receipt by customer when stored at 22°C ±5°C (72°F ±10°F) and 60% relative humidity.

PHYSICAL PROPERTIES

Values shown are typical values and not to be used for specification purposes.

Carrier	None
Release-Liner	Siliconised Glassine
Adhesive	Acrylic-based
Colour	Colourless (Translucent)
Thickness	Adhesive 50µm / 0.05mm (±10%) / Release Liner 70µm / 0.07mm (±10%)
Width	12mm, 25mm (±5%). Other widths available on request.
Length	10m (±0.1). Other lengths available on request.

PERFORMANCE PROPERTIES

Values shown are typical values and not to be used for specification purposes.

Temperature Resistance	-20°C to +120°C / -4°F to 250°F
Application Temperature	5°C to 38°C / 41°F to 100°F
