FEATURES

- ✓ Statically charged
- ✓ 17 microns thick
- ✓ Moisture absorbent
- ✓ Temperature resistant to 120°C/248°F
- ✓ Infrared compatible
- ✓ Can be used with all types of automotive, marine, decorative and industrial paint systems
- ✓ Closed cell structure prevents bleed through and paint will not peel off when dry

BENEFITS

- ✓ Film will naturally cling to the surface/area that it's applied to
- ✓ Tear/puncture resistant
- ✓ Treated to minimise the risk of ghost marking
- ✓ Suitable for all modern drying systems
- ✓ Able to withstand 120°C/248°F infra-red waves with no need for specialist films
- ✓ No need for different types of masking film or paper
- ✓ Prevents re-work or damage to covered surfaces helping to reduce costs and saving time

AREAS OF APPLICATION

- ✓ Automotive
- ✓ Marine
- ✓ Decorative
