130°C FLAT ORANGE PRECISION MASKING TAPE

PART NO. 1125

The flexible, water-proof, advanced acrylic adhesive masks rubbers, plastics, mouldings and trims and will adhere to surfaces that standard masking tape would otherwise not.

FEATURES

- ✓ Temperature resistant to 130°C/265°F up to 30 mins
- ✓ Ideal for straight lines
- ✓ Rice paper, ideally suited for both solvent-based and water-based paint systems
- ✓ Acrylic adhesive for highly protective bonds on sensitive surfaces
- ✓ No bleeding/creeping/spidering under masked line
- ✓ Good adhesion and residue-free removal, even from sensitive substrates
- ✓ UV resistant for up to 14 days

BENEFITS

- ✓ Can be used with low bake and infra-red drying systems
- ✓ Suitable for multicolour applications
- ✓ No need for multiple tapes
- ✓ Excellent adhesion on all surfaces
- ✓ Can be used as a fine line tape
- ✓ Can be used on painted/non painted surfaces, chrome, glass, wallpaper and furniture
- ✓ Suitable for prolonged exterior applications

AREAS OF APPLICATION

- ✓ Painted surfaces
- ✓ Glass
- ✓ Plastics & mouldings
- ✓ Trims & rubbers
- ✓ Wheels
